Continuation of 4(e) Other: It appears that claim 2 is deleting "a" from the claim language, but the strikethrough is hard to distinguish. In cases where the strikethrough is hard to distinguish or five or less characters are being deleted, double brackets should be used. In this case, the strikethrough is not clear, and it is hard to determine whether it is intended as a strikethrough or an error in the scan or copy. As such, please make the appropriate corrections to show the language changes to clarify the intended language of the claim.
